TV'S FLIGHT-TO-COAST WORRIES N.Y.

DRIVE-INS STILL BALK AT C'SCOPE

New York, March 9. — Latest count of drive-in possibilities for motion pictures in the U.S. and Canada puts the number of ozoners at 4,186, as of last month. Survey, made by 20th-Fox exchanges, takes on particular significance for that company since in the moment there are no indications that drive-ins are paying any heed to 20th's dictum they must install dual-in-car speakers.

Only a handful of ozoners apparently are willing to undertake the expense of such an installation, which has been estimated to run upwards of $20,000 for a 750-car drive-in. Feeling among operators (Continued on Page 15)

Warring To Continue

For GE Over CBS-TV

New York, March 9. — General Electric has apparently decided to hold out with Fred Waring and "GE Theatre" telepix until fall in CBS Sunday slot. Sponsor signed with Stuart Reynolds for re-run rights to 13 vidpix as summer replacement with a June starting date.

It is no secret that both GE and CBS are unhappy with the state of Sunday night. Both are in a quandary because of the indecision of Bing Crosby regarding tv. Telepix buy, however, indicates there'll be no changes until next season.

Well-Couched Spiel

New York, March 9. — United Artists now has a "human relations expert" on the payroll.

The move, normally associated with the American Red Cross, has been hired to make the rounds of newspaper offices with conversation about the psychiatric meaning of the romance that unfolded in "Act of Love" from Barry's first stipend last week, in Washington, paid off. Jay Carmody, Evening Star film critic, did a full column on his interview with her.
